The Franco-Swiss artist is back with an instrumental work in the guise of a joyfully patraque waltz. This musically iconoclastic piece, with its exploratory approach, is both melodic and slightly unbridled. Here are the playlist links: Voici les liens vers les playlists :

Hello Ici Factory,

We wanted to thank you for presenting your song "La valse a mis le temps" to us through the Groover platform.

This song, the latest from your album "Let's Dance the Night Together," has particularly moved us. We really liked the delicacy of the composition, the elegance of the melody, and the way you manage to breathe new life into the timeless and universal dance of the valse. It's clear that this project is very personal to you, and that is clearly conveyed to the listener.

We are happy to inform you that we will be broadcasting your song in the coming days on IBIZA Radio 1. We hope this will allow it to reach a wider international audience.

Thank you for your music and for sharing your art with us.

Best regards,

IBIZA Radio 1

Hello! In my opinion, "La valse a mis le temps", the track I chose to release, has a simple reason: this valse has a timeless charm that deserves to be shared. It's not about technical exaggerations or grandiosity, but about the discreet elegance of a melody that flows naturally, as if inviting the listener to dance without rushing. The choice of a valse, a rhythm that crosses generations, shows a clear intention: to create something that speaks to different cultures and ages, without having to force things. If you enjoy arrangements that breathe nostalgia, but with a personal touch, this is for you. That's why I decided to promote it: I believe that good compositions, when done sincerely, deserve to resonate. Stay in the flow! After its release, we will include your song in our radio show "Noitinha Cool" here on Rádio Armazém (listen at radioarmazem.net). The radio show is broadcast every Sunday at 10:00 pm (Brazil time). This radio show will later go to our playlist on our Spotify profile. Consider liking/following our playlist?!

The combination of uplifting synths and energetic percussion keeps the momentum strong. Your vocals add emotion, making the track more than just a dancefloor hit. The mastering ensures every element has impact. It earns a place in my playlist for its euphoric energy. Keep producing these anthems!

Hello Ici Factory,
This type of waltz evolves through an electronic and very colorful sound.

In addition to a very rhythmic piano that seems to be having fun, the cadences of these solo instruments emerge with a free and improvisational character.

Good!

Hi Ici Factory There's something timeless about a waltz, and Ici Factory truly captures that feeling in "La valse a mis le temps." The moment I pressed play, I felt like I had stepped into an old movie scene—one with warm lighting, soft footsteps, and a gentle breeze through lace curtains. This instrumental track is full of charm and grace. I actually played it during a quiet morning with coffee, and it made everything feel softer and slower, in the best way. It's the kind of song that makes you pause for a moment, breathe a little deeper, and maybe even sway side to side without realizing it. What I love most is how simple yet moving the piece is. No words, yet it says a lot. It feels like a conversation between the past and present, carried by beautiful melodies and a steady rhythm. The piano and strings work together so well, giving it both elegance and heart. Regards
Ron

Magnificent song, a beautiful and surprising surprise. Sung with a unique and evident artistry. Full of enthusiasm and determination. By a professional artist with exceptional potential, played with a splendid and wonderful melody, exceptional, lush and balanced, as well directed and organized. Truly melancholic. Congratulations.

[Branimir Lokner](#)

"La valse a mis le temps" is an unclassical waltz, judging by known standards. However, one combination of the following electro tendencies, with waltzing psychology, rhythmization, and the inclusion of the accordion in the arrangement, in the final, gives a specific picture. The connection with newer and older manneristic elements shows that this kind of experiment can be said to be acceptable.

Hello, thank you for sharing "La valse à mis le temps" with us.

It's refreshing to receive a proposal that dares to capture the essence of such a classic dance as the valse (waltz) within a contemporary context. It shows great respect for musical tradition and a clear intention to transcend borders with a universal language: that of movement, time, and emotion.

ě Positive aspects:

The composition conveys elegance and sensitivity, qualities that are often lost in current musical productions.

The performance and arrangement evoke a timeless atmosphere, which can connect with diverse audiences across different geographies.

The decision to include a piece like this on an album called “Let's Dance the Night Together” demonstrates artistic breadth and stylistic courage.

Ultimately, “La valse à mis le temps” is an authentic proposal that conveys a passion for music with elegance and subtlety. We appreciate your dedication to this art form and encourage you to continue developing this unique language.

Warm greetings from Latino Gang Latam. 🇵🇷 🇪🇨
