Hi, Ici Factory!

Thank you for sharing your music with us. We find your work quite interesting and aligned with the artistic vision of one of our sub-labels, Ensayos Contemporáneos. This imprint focuses on innovative and contemporary sounds, and we believe your music would be a great fit.

We have distribution through Virgin Music Group, and it could be worthwhile to explore a conversation about migrating your catalog and/or collaborating on the release of new projects. We see a lot of potential for a fruitful partnership.

If this sounds of interest, we'd love to set up a time to discuss the possibilities further.

Looking forward to hearing from you!

Best regards,
Arthus Fochi

Hello! In our opinion, "Slow Helicoidal" is an instrumental journey that moves with the lightness of a continuous flow, mixing in a hybrid and organic way elements of world music, jazz and study-beats. The track stands out for its volatile and dizzying instrumental, where each sound layer seems to intertwine in a spiraling movement that hypnotizes and captivates. The arrangements are meticulous, with dynamic rhythmic textures and harmonies that evoke a sense of constant exploration. It's an immersive listening experience, perfect for both moments of introspection and creatively focused tracks.

Your music will play on our radio, from Brazil to the world via online.

Stay in the flow!

After its release, we will include your song in our radio show "Noitinha Cool" here on Rádio Armazém (listen at radioarmazem.net). The radio show is broadcast every Sunday at 10:00 pm (Brazil time). This radio show will later go to our playlist on our Spotify profile and your music will continue to play on the radio schedule. We will share it on our social networks and tag you on our Instagram, for our followers!

Hi Ici Factory,

Your track "Slow Hélicoïdal" for me is like a slow-motion spiral into another dimension. This instrumental track builds layer by layer, pulling you into its hypnotic rhythm with a mix of dance and meditative vibes. It's not just music—it's an experience that lifts you up, almost like you're floating on a gentle whirlwind.

The track's pacing is what got me hooked. It starts off simple, then gradually adds complexity, almost like watching a dancer spin faster and faster but still gracefully. I played it while sitting by my window during sunset, and it felt like the perfect soundtrack for the shifting colors in the sky—grounded yet dreamlike.

There's a trance-like quality here that makes it hard to resist. Even if you're not into dance music, the slower, more reflective tempo invites you in. It's like the track is saying, "Take your time, let's go somewhere together." And honestly, by the end, I felt like I'd been on a short mental vacation.

It's calm, swirling energy might just carry you away.

Regards
Ron

A trippy song with an interesting arrangement and elements that work well throughout the instrumental. A track that shows talent and diversity in its melody. Unfortunately, this is not the genre we play on our radio, but we wish it success.

Hello Ici Factory, what a genius "Slow hélicoïdal" is very diverse and rich musically, the guitar in the middle of the song was luxurious, you have very good taste in mixing sounds and how you go from major to minor progression, very good job, I would have only recorded the instruments such as drums, bass and the brass session to give it more strength but it is a matter of taste, I am here to order, I am going to add your song to my playlist of "Instrumentales with Values", big hug from Venezuela

Hey there! Thank you for your track. I liked the virtuoso bass part and the original melody structure. But unfortunately, this track doesn't resonate with my playlist concept. So I have to decline. Thank you again and good luck.

Hello,

I hope you are well!

A perfect and catchy piece of music, in instrumentations that are both fine and pleasantly rhythmic. Another success, bravo!

I'm adding it to our playlist of the week.

Take care of yourself,

Hey there,
Thanks for sharing your music with me 🙏
The flow is great and I love the instruments used !
At the moment I don't really have a playlist with an instrumental vibe, except for my lo-fi playlist. I like your song in general but I don't see it fitting in that playlist at the moment because it has a more relaxing soft background vibe with the main focus on study beats and lofi music, which is why I'm passing for now.
Hope you understand my decision and appreciate my feedback.
I would love to hear more of your work in the future though !

Hey Ici,
Thanks for the submission.

Feeling the track. I thought it had a bit of a worldly feel to it, but I think it's actually a lot more Jazz driven. Therefore, I've added it to my 'We Got The Jazz!' Spotify playlist:

<https://open.spotify.com/playlist/4Ott3ixUYHi5VRpV4brivw?si=22311314d009480b>

Of course be sure to give the playlist a follow and listen, which helps the playlist and featured artists in the algorithm. Also look out for me/us on the socials @gadgeminda @tekhedz @millenniumjazzmusic and please do share all the above.

Bless!!

Hello, Ici Factory. Thank you for sending this nice track. A very ingenious instrumental with different moods. I guess the rearrange of the original recording adds so much to this track.

We'll be featuring the track on our "Descobertas Groover" program. The show will air on Saturday, January 11, at 7pm GMT, and on Tuesday, January 14, at 11pm GMT, and can be heard at www.radionove.com.br.

Also, we will add the track in the playlist of our time slot "Vasto Mundo". The show airs every day, at 06:00 GMT at www.radionove.com.br. This runs in a random playlist, so is not guaranteed that the track will play every day or at a set time.

Please send a mp3 or wav file of the track.

"Ici Factory - Slow Hélicoïdal" is a fascinating track that gently guides the listener through a captivating, spiraling sound journey. The slow, immersive buildup creates a sense of gradual

movement, much like the slow rotation of a spiral. The minimalistic, yet intricate arrangement of sounds fosters a unique atmosphere, drawing attention to the subtle interplay between each layer.

However, for some listeners, the slow pace and repetitive nature of the composition might feel monotonous, particularly if they prefer more dynamic or evolving musical elements. The track's minimalism, while effective in creating a focused atmosphere, may not provide the level of variety or complexity some might expect from a longer piece. Despite these potential drawbacks, "Slow Hélicoïdal" excels in its ability to create an entrancing, hypnotic experience that resonates deeply with those who appreciate atmospheric, experimental music.

Hi Ici Factory, Thanks for sharing your work. It's a catchy instrumental composition with an interesting blend of styles and original rhythm changes. While I enjoyed the uplifting and fresh atmosphere in your work, I'm currently looking for compositions with a more romantic essence to fit well with my playlist, which is also percussion-free. I'm sorry I can't share your piece this time, but I'm definitely interested in exploring more of your music in the future.

Best regards!
